<b>Company History</b>	A family-owned and -operated business founded in 1996 in San Marcos, Calif., Bell Rock Growers was formed after co-founder Catherine Hoffmann discovered the Power of Green Nutrition at a wellness retreat. At the heart of her experience was the use of one simple, yet incredibly nutrient-rich plant – wheat grass. Hoffmann and co-founder Marty Walls began producing the pet product industry’s first nationally distributed live wheat grass, called Pet Grass®, and live catnip when they realized the parallel health benefits of green nutrition for pets. The company has since extended the Pet Greens® product line to include dog and cat treats and biscuits and an earth-friendly therapeutic grooming line, all made with nutrient-rich wheat grass.
